Cut along line.

Government funded school-at-home programs are affecting homeschoolers across the nation, often with dire consequences. This video exposes the reasons for such programs and the ultimate goal of those that promote them. The chaos these programs will cause in the lives of our children may not become evident for generations, but the risk is real. Prepare yourself by ordering a copy of this powerful documentary . Share the video with those you know that are considering this educational alternative.

Expose the Trojan Horse!
